

Wash Your Hands Song

By Gary Pane - "The Manatee Man"

[MUSIC INTRO]

You were out playing in the dirt at recess
You look at your hands and say "What a big mess"

Your hands are dirty and full of germs
You were even touching some beetles and some worms

[CHORUS]

**You better wash your hands
You better wash your hands
You better wash your hands
And use plenty of soap
I said wash those hands
I said wash those hands
Wash those hands
And use plenty of soap**

Smog produced by a million cars lands on the swings and
the monkey bars

Germs all over the playground stuff
Your immune system says, "I've had enough"

[CHORUS]

**You better wash your hands
You better wash your hands
You better wash your hands
And use plenty of soap
I said wash those hands
I said wash those hands
Wash those hands
And use plenty of soap**

[Music Break]

You can avoid the flu
You can take care of you
This ain't nothing new
It's something that you gotta do

You don't want E coli
I ain't telling no lie
Keep hands sterilized and live a better life

Staph bacteria
In your cafeteria
As bad as Diphtheria
You should take it serious
And Doorknobs are bad
They're a germ launch pad

Just wash your hands
And you'll always be glad

Just wash your hands
And you'll always be glad

[CHORUS]

**You better wash your hands
You better wash your hands
You better wash your hands
And use plenty of soap
I said wash those hands
I said wash those hands
Wash those hands
And use plenty of soap**
